### SUMMARY OF SIGNIFICANT ACCOMPLISHMENTS

1. Prints from the GSSS digital sky survey for all of the UIT Astro-1 and Astro-2 targets were produced and delivered to UIT team members.
2. The 16 day Astro 2 mission was supported at the POCC in Huntsville.
3. This grant was the primary funding source for the Post-doc Denise Smith for the last 2.5 years of the grant. She took the lead in the papers in the bibliography below, where her name is first.
4. The papers listed below were published with major contributions by the grant PI, especially in the data analysis sections.
